

***Anechoic* — Official Selection**

Xsection Dance & Science Film Festival 2018 (@xsectionfilmfest) — a programme dedicated to interdisciplinary collaboration between dance, science, and film.

THE FESTIVAL

Xsection Dance & Science Film Festival sparks interdisciplinary collaboration between dance, science, and film. Its programme archives the expression of current scientific findings and engages with dancemakers on topical scientific subjects — space exploration, medical advancements, fundamental principles. The 2018 edition's selection was announced 12 June 2018 and screened 30 June 2018.

ANECHOIC IN THE 2018 SELECTION

Anechoic (directed by Charles Billot; choreography & performance by Maggie Segale) was named an Official Selection of the 2018 edition. The programme placed the film alongside other dance-film and movement-based works, framing it within an experimental / dance-film context rather than a commercial one.

2018 SELECTION (PROGRAMME COMPANIONS)
